

NewTechAqua

New Technologies, Tools and Strategies for a Sustainable, Resilient and Innovative European Aquaculture

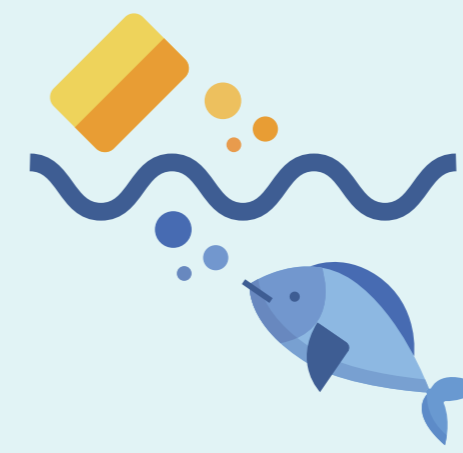

**Industry 4.0 to
improve efficiency:
Real time management
and artificial intelligence**

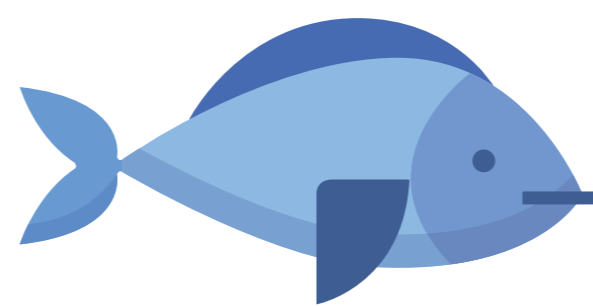

**Innovative
rearing system
to foster circularity**

**Organic,
zero-waste and
pro-health feeds**

**New eco-friendly
products with high
nutritional values**

**Diversification
of farmed species**

**Innovative breeding
program enhancing
species' robustness**

**26
partners**

**48
months**

**6
Million
euros**

**9
countries**
